

ICICI Prudential Gilt Fund

(An open ended debt scheme investing in government securities across maturity. A relatively high interest rate risk and relatively low credit risk)

About the Scheme

Launched in August 19, 1999, **ICICI Prudential Gilt Fund** is an open-ended debt scheme investing in government securities across maturity.

- The Scheme aims to invest in long-term and medium-term Government securities with an intent to generate capital gains.
- The Scheme seeks to take aggressive duration calls based on the underlying interest rate view.

Current Investment Strategy

- *Instrument profile:* Scheme invests only in Government securities across maturities.
- *Security selection:* The Scheme identifies Government securities with varying maturities which offers a blend of duration and reasonable yield. It aims to capture maturity spreads available on the sovereign yield curve.
- *Duration management:* The Scheme takes active duration calls based on the underlying interest rate view. It does in-depth analysis of the macro economic situation and the overall interest rates trend while managing the duration of the portfolio.
- The Scheme aim to maintain high duration when interest rates are at peak and low duration when interest rates are relatively lower.

Why ICICI Prudential Gilt Fund?

- ✓ ICICI Prudential Gilt Fund is a gilt fund that aims to take active duration calls with an intention to benefit from any favourable interest rate movements.
- ✓ The Scheme has a nearly 18 years' track record of investing in long dated government securities and with a focus towards generating alpha through duration management.
- ✓ Investors seeking to take calls on interest rate movements and benefit from any potential capital appreciation may consider investing in this Scheme.
